MV explained that we need to ensure that initiatives in place to support public transport remain and continue beyond the pandemic.</p> <p>6.6 Concerns were also raised that the Government's road building programme should be paused and reviewed.</p> <p>6.7 In response to a question from the Board, SB confirmed that the modelling used does not have the ability to look in specific geographic areas to understand issues such as aviation recovery.</p> <p>6.8 Russell Spink confirmed that since the papers were published, the design of the report has been updated and a separate, easy to read,</p>

The area studies will consider the connectivity between strategic corridors and will help local transport authorities with evidence for their own local transport planning role. TfSE is also part of a joint STB rural mobility group. This will ensure any outcomes from rural mobility studies taking part</p>	

<p>in other areas of the country can be reflected in the South East region where appropriate.</p> <p>8.5 RC confirmed that once the area studies have been completed, TfSE will be in a better position to identify whether a separate rural mobility study needs to be undertaken and if agreed, then a request for funding can be presented to the DfT.</p> <p>8.6 The recommendation was agreed by all Shadow Partnership Board members.</p> <p><i>RECOMMENDATION:</i> The members of the Shadow Partnership Board are recommended to note the progress with work on the area studies.</p>
